WE ARE NZ'S LEADING SUPPLIER IN THE INDUSTRY OF POOL AND SPA CHEMICALS, EQUIPMENT & TECHNOLOGIES.

We specialise in the manufacturing, importing and distribution of quality, value added pool and spa chemicals and equipment. With over 40 years of experience in the industry, we have created reputable brands and products found in pool and spa shops and larger FMCG stores nationwide. We are proud to be New Zealand's leading supplier in the industry.

Industry Experts
Over 40 years of experience in chemical manufacturing and distribution. We are the best at what we do.

Reputable Brands
We distribute only the most reputable brands in the pool and spa industry, from chemicals to equipment.

Service and Support
Customer satisfaction is at the heart of what we do. We see every customer as a key partner.

PRODUCT OVERVIEW

The Bravo Single Speed Pool Pump is designed with features specifically tailored for both fresh and salt pools. It includes a stainless steel shaft and glass filled poly-propylene construction with high UV protection for strength and durability. The carbon ceramic mechanical seal ensures reliable performance. The pump is equipped with top-quality bearings sourced from TPI-Taiwan and features a large leaf basket with a clear view lid for easy maintenance. It comes with 40mm and 50mm fitting unions, a 1.5m suction end on high speed, and a ready-to-go plug with a 3m flex. The built-in overload thermal protector, made in the USA, enhances safety. With IP55 water ingress protection and compliance with AS/NZS60335.1 & AS/NZS60335.2.41 standards, this pump is built to last. Operating at a single phase of 240V/50Hz and suitable for temperatures below 35°C for water and 50°C for the ambient environment.

POOL AND SPA CHEMICALS

BALANCE CHEMICALS

—

Water balance is a crucial aspect in pool maintenance. Maintaining a healthy pH balance ensures that your sanitising chemicals are working efficiently, decreases the probability of problems such as algae growth and prolongs your pool and pool equipment.

pH BUFFER

pH Buffer (Sodium Bicarbonate) has the ability to resist changes in the pH levels of water and buffers the water from wild pH swings. It will raise the total alkalinity in swimming pools and spa pools.
