

Section 1: Identification of the Substance/Mixture and of Supplier

Product name: CLARITY POUR N GO CLARIFIER 1L
Recommended use: Eliminates suspended dirt and organic matter that encourages bacteria and algae growth. Restores sparkle and clarity to your pool and spa.
Supplier: Space Industries Limited
Street Address: 160 Plunket Ave,
 Wiri, Auckland
 New Zealand
Telephone Number: + 64 9 262 3902
Facsimile: + 64 9 262 3948
E-mail: orders@spaceindustries.co.nz
Website: www.spaceindustries.co.nz
Emergency Telephone: 0800 764 766 (all hours)
Date of preparation: 3 February 2026

Section 2: Hazards Identification

Hazard Classification: Not classified as Dangerous Goods by the criteria of the "Australian Code for the Transport of Dangerous Goods by Road & Rail" and the "New Zealand NZS5433: Transport of Dangerous Goods on Land".
GHS Classification: Hazardous to the Aquatic Environment Category 3
Signal Word: None
Hazard Statement: H412 Harmful to Aquatic Life with long lasting effects
Precautionary Statements: P273 Avoid release to the environment
 P501 Dispose of container to an approved waste disposal facility

Section 3: Composition/information on ingredients

Product Description: Swimming pool clarifier
Component(s): 2-Propen-1-aminium, N,N-dimethyl-N-2-propenyl-, chloride, homopolymer
CAS Number: 026062-79-3
Proportion: 10-25%

Section 4: First Aid Measures
Show this Safety Data Sheet to a Doctor

Inhalation: Remove to fresh air and keep at rest in a position comfortable for breathing. If symptoms persist seek medical attention
Skin Contact: First aid is not normally required however it is recommended to wash exposed areas with soap and water.

Eye Contact:	Irrigate eyes with generous quantities of water for 15 minutes. Remove contact lenses, if present and easy to do. If irritation occurs seek medical attention.
Ingestion:	DO NOT induce vomiting, seek medical attention if you feel unwell
For advice, contact the Poisons Information Centre 0800 764 766 or a doctor	

Section 5: Fire Fighting Measures

Specific Hazards:	The product is not flammable, but may decompose in a fire to liberate flammable vapours
Suitable Extinguishing Media:	Extinguish fires with water spray, foam, carbon dioxide or dry chemical powder.
Fire-fighting advice:	Fire fighters should wear a self contained breathing apparatus and full protective clothing along with protective equipment.

Section 6: Accidental Release Measures

Emergency Procedures	Spillages are slippery. Keep spectators away – rope off the area, prevent release to the drain, and clean up immediately.
Methods and Materials for Containment and Clean Up	Carefully scoop up or shovel up uncontaminated product for re-use. Sweep up contaminated material and dispose of to an approved facility. Do not incinerate – the by product can be hazardous.

Section 7: Handling and Storage

Handling:	Avoid eye and skin contact.
Storage:	- Keep out of reach of children - Read label before use - Store only in original container. - Keep containers tightly closed when not in use.

Section 8: Exposure Controls/Personal Protection

Occupational Exposure Limits:	No value assigned for this specific material by the New Zealand Occupational Safety and Health Service (OSH).
Engineering Control Measures:	Use in well ventilated area.
Personal Protective Equipment:	Gloves and eye protection recommended

Section 9: Physical and Chemical Properties

Physical state:	Liquid
Colour:	Straw
Odour:	Odourless to slightly aminic
Boiling/melting Point:	>100°C
Specific Gravity/Bulk	1.1g/cm ³
Vapour Pressure:	Not tested
Flash Point (°C):	>100°C
Percent Volatilise:	Not available
Flammability Limits:	Not tested
Autoignition Temperature:	Not tested
PH 1% Solution:	6.5%

Section 10: Stability and Reactivity

Stability:	Product is stable under normal conditions of use, storage and temperature. The product is fully soluble in water.
-------------------	--

Section 11: Toxicological Information

	Not classified as toxic based on available information
--	--

Section 12: Ecological Information

Environmental fate, persistence and degradation:	Avoid contaminating waterways. Biodegradable <70%
---	--

Section 13: Disposal Considerations

Do not incinerate empty containers. Dispose of in accordance with any local regulations at an approved facility
--

Section 14: Transport Information

Road and Rail Transport:	Classified as a non - dangerous Good according to NZS 5433:1999 Transport of Dangerous Goods on Land.
---------------------------------	---

Section 15: Regulatory Information

Classification:	None
------------------------	------

Section 16: Other Information

.Issue Date: Feb 2026
Note: All information given by Space Industries Ltd is offered in good faith and is, to the best of our knowledge, true and accurate.
